CONTENTS OF VOLUME 115

Vol. 115A, No. 1

Review

A. L. Clatworthy 1 A simple systems approach to neural-immune communication

General Papers

D. Porcel, J. D. Bueno, and A. Almendros 11 Alterations in the digestive gland and shell of the snail *Helix aspersa* Müller (gastropoda, pulmonata) after prolonged starvation

W. Mohrig, I. Eue, E. Kauschke, and F. Hennicke 19 Crossreactivity of hemolytic and hemagglutinating proteins in the coelomic fluid of lumbricidae (Annelida)

Y. B. Manteifel and M. A. Karelina 31 Conditioned food aversion in the goldfish, *Carassius auratus*

J. Elnif and P. T. Sangild 37 The role of glucocorticoids in the growth of the digestive tract in mink (*Mustela vison*)

M. Kashiwayanagi, H. Kawahara, K. Kanaki, F. Nagasawa, and K. Kurihara 43 Ca^{2+} and Cl^--dependence of the turtle olfactory response to odorants and forskolin

S. Watson, W. J. Foley, S. McLean, S. Brandon, and N. W. Davies 53 Quantitative urinary excretion of unmetabolised N^{τ}-[Me-^{14}C]methylhistidine by the common ringtail possum (*Pseudocheirus peregrinus*) marsupialia

I. Y. Mahmoud, K. Vliet, L. J. Guillette, Jr., and J. L. Plude 57 Effect of stress and $ACTH_{1-24}$ on hormonal levels in male alligators, *Alligator mississippiensis*

L. M. McLeay and M. A. Pass 63 Inhibitory effects of short intravascular infusions of propionate on reticulo-rumen motility in the sheep

Y. V. Natochin and E. I. Shakhmatova 73 Lithium transport in the chicken and marine teleost kidney

K. E. Marsman and M. I. McBurney 81 Influence of dietary fiber consumption on oxidative metabolism and anaplerotic flux in isolated rat colonocytes

I Comparative Biochemistry and Physiology A Bibliography

IV Instructions to Authors

Vol. 115A, No. 2

Review

M. Holmstrup and K. E. Zachariassen 91 Physiology of cold hardiness in earthworms

General Papers

J. Farrell and S. E. Campana 103 Regulation of calcium and strontium deposition on the otoliths of juvenile tilapia, *Oreochromis niloticus*

F. Moraga, C. Monge, R. Riquelme, and A. J. Llanos 111 Fetal and maternal blood oxygen affinity: a comparative study in llamas and sheep

F. C. W. Rosas and K. K. Lehti 117 Nutritional and mercury content of milk of the Amazon river dolphin, *Inia geoffrensis*

D. R. S. Sartori, I. C. Kettelhut, J. A. S. Veiga, and R. H. Migliorini 121 Gluconeogenesis and glucose replacement rate during long-term fasting of japanese quails

N. T. de Talamoni, A. Marchionatti, V. Baudino, and A. Alisio 127 Glutathione plays a role in the chick intestinal calcium absorption

R. N. Finn, H. J. Fyhn, R. J. Henderson, and M. S. Evjen 133 The sequence of catabolic substrate oxidation and enthalpy balance of developing embryos and yolk-sac larvae of turbot (*Scophthalmus maximus* L.)

L. B. Melton and J. C. Vanatta 153 Ammonia transport by the urinary bladder of *Bufo marinus*

A.-G. Gjevre and L. I. M. Næss 159 Intestinal Na^+/K^+-ATPase activity in salmonids

L. V. Virkki and M. Nikinmaa 169 Conductive ion transport across the erythrocyte membrane of lamprey (*Lampetra fluviatilis*) in isotonic conditions is mainly via an inwardly rectifying K^+ channel

I Comparative Biochemistry and Physiology A Bibliography

IV Instructions to Authors

Vol. 115A, No. 3

E. Rudolf and C. Dournon 177 Activity of peptidase-1, a sex linked enzyme, during larval development at normal or sex reversal rearing temperature and according to tissues in adults of *Pleurodeles waltl* (urodele amphibian)

M.-P. Vignault, M. Saboureau, and C. Grenot 187 Water turnover evaluated by the tritiated water method and by the nutritional method in European hedgehog (*Erinaceus europaeus* L.)

Y.-H. Chen and M.-C. Tsai 195 Bursting firing of action potentials in central snail neurons elicited by *d*-amphetamine: role of the intracellular calcium ions

H. J. Rolf and K. Fischer 207 Serum testosterone, 5-α-dihydrotestosterone and different sex characteristics in male fallow deer (*Cervus dama*): a long-term experiment with accelerated photoperiods

A. M. Al Senaidy 223 Distribution of α- and γ-tocopherols within blood fractions of ruminants

K. Konno, C. Hirayama, and H. Shinbo 229 Unusually high concentration of free glycine in the midgut content of the silkworm, *Bombyx mori*, and other lepidopteran larvae

D. M. H. Mantiri, G. Nègre-Sadargues, G. Charmantier, J.-P. Trilles, J.-C. G. Milicua, and R. Castillo 237 Nature and metabolism of carotenoid pigments during the embryogenesis of the European lobster *Homarus gammarus* (Linné, 1758)

N. Hiramatsu and A. Hara 243 Relationship between vitellogenin and its related egg yolk proteins in Sakhalin taimen (*Hucho perryi*)

M. H. Clench and J. R. Mathias 253 Myoelectric activity of the cecum in fed and fasted domestic fowl (*Gallus* sp.)

D. Hermier, D. Catheline, and P. Legrand 259 Relationship between hepatic fatty acid desaturation and lipid secretion in the estrogenized chicken

M. A. Kostenko and S. N. Myakisheva 265 The role of chemotaxis in morphological differentiation of mollusc neurons

I Comparative Biochemistry and Physiology A Bibliography

V Instructions to Authors

Vol. 115A, No. 4

C. E. Bowen and H. Tang 269 Conchiolin-protein in aragonite shells of mollusks

A. Lublin and D. Wolfenson 277 Lactation and pregnancy effects on blood flow to mammary and reproductive systems in heat-stressed rabbits

T. Mikolajczyk, P. Epler, M. Sokolowska-Mikolajczyk, and B. Breton 287 Mode of action of (−)nicotine on GtH2 secretion from pituitary cells of common carp (*Cyprinus carpio* L.)

P. C. Hubbard, C. R. McCrohan, J. R. Banks, and R. J. Balment 293 Electrophysiological characterization of cells of the caudal neurosecretory system in the teleost, *Platichthys flesus*

R. Acierno, M. Maffia, P. Sicuro, L. Fiammata, M. Rollo, L. Ronzini, and C. Storelli 303 Lipid and fatty acid composition of intestinal mucosa of two Antarctic teleosts

N. G. Tolosa de Talamoni 309 Calcium and phosphorus deficiencies alter the lipid composition and fluidity of intestinal basolateral membranes

A. Agis-Torres, M. E. López-Oliva, M. T. Únzaga, and E. Muñoz-Martínez 317 Recombinant human growth hormone modifies the inherent partition of nutrients in growing female and male BALB/c mice

J. A. Grøttum and T. Sigholt 323 Acute toxicity of carbon dioxide on European seabass (*Dicentrarchus labrax*): mortality and effects on plasma ions

K. Gromysz-Kałkowska and M. Grochowska 329 Oxygen consumption by *Lipara pullitarsis* Dosk. et Chv. (*Diptera, Chloropidae*) during development

D. A. Gray and M. Frescura 335 Urinary clearance of angiotensin II in Pekin ducks

V. Bonnet and C. Léoty 341 An estimate of the participation of the sarcoplasmic reticulum in the intracellular Ca^{2+} regulation in adult and newborn ferret hearts

B. Styrishave and M. H. Depledge 349 Evaluation of mercury-induced changes in circadian heart rate rhythms in the freshwater crab, *Potamon potamios* and the crayfish, *Astacus astacus* as an early predictor of mortality
